## PATH HMIS Workflow

**What is the same**
- Login
- Create client/household
- Create ROI
- Referrals
- Entry/Exits
- Interims
- VI-SPDATs
- Services

**What is different**
- Project types (Street Outreach and Services Only)
- Type of PATH Service and Referral
- Entry/Exit type is PATH
- PATH-specific assessment questions

## Project Types

**Street Outreach**
- Residence prior to project entry must be place not meant for habitation
- If you are unable to get the client's residence prior in a reasonable amount of time, enter them as Services Only

**Services Only**
- Any residence prior other than place not meant for habitation

## Type of PATH Service and Referral

**Type of PATH FUNDED Service**

- This field causes services to populate in the PATH report
- Only Services provided by the PATH grantee should be documented here

**Type of PATH Referral**

- This field, along with Outcome, is what causes referrals to populate in the PATH report
- Referrals are only counted on the PATH report if they are attained in the reporting period

## Entry/Exit Type is PATH

- You **must** EDA to the correct PATH project for the required fields to appear
- Entry/Exit Type is PATH

---

## PATH-Specific Assessment Questions

- **Outreach** is where you record Contacts. Every Entry/Exit should have a Contact for the date of Entry

- Contacts default to 12P, so if your Entry is time stamped after 12P you need to adjust the Contact time stamp accordingly. The easiest way to do this is to select the current date using this icon:

- Contacts always end the same day they started

- Additional contacts should be recorded throughout the stay via Interims

---

## PATH-Specific Assessment Questions

- The **Date of Engagement** is the date you have formed enough of a relationship with the client to complete an assessment

- The Date of Engagement must be on or after the Entry date

- If the Date of Engagement is after the Entry date, it should be added via an Interim

## PATH-Specific Assessment Questions

- **Date of PATH Status Determination** is the date you determine whether or not the client is eligible for PATH

- The Date of PATH Status Determination must be on or after the Entry date and the Date of Engagement (if there is one)

- If the Date of PATH Status Determination is after the Entry date, it should be entered via an Interim

## PATH-Specific Assessment Questions

**Client Became Enrolled in PATH**

- Yes

- No

**If no, reason not enrolled**

- Client was found ineligible for PATH

- Client was not enrolled for other reason(s)

## PATH-Specific Assessment Questions

- **Connection with SOAR** indicates whether or not the client has been referred to a SSI/SSDI Outreach, Access, Recovery (SOAR) specialist

- If the client is referred to SOAR after the Entry date, the answer should be updated via Interim or at Exit, as appropriate
